

PHOTO THEQUE

Alain Kohl
Photographer author - Creator & Illustrator

I'm passionately since always and professional
since more than 25 years,
from taking pictures to the laboratory, from argentik to numerical.

Author and interpret in respect of photographer word etymology,
" **Ones which writes with the Light** "

The expression of my own photographic writing,
subtle and fragile alchemy,
between passion and reason, between narration and escape,
transcends and restores fully these negligible fractions of unit :
" **Space-Time-Emotion** "

I crossed majority fields of photography :
Publicity-Industry-Architecture-Mode-Reports
Press-Events-Studio-Portraits

For me, a photographer is above all :
" **A personal, singular glance on plurals of its environment** "

I propose to you an escapade in my universes
through the various galleries and sets of themes
which reflect part
of my **collection of more than 30.000 visuals.**

I wish you an excellent travel and many discoveries !

Especially don't hesitate to return regularly knowing
the Site is constantly completed and enriched by new images.
